

Million Pollinator Garden Challenge!

Winter is a great time to hunker down next to the wood stove or fireplace and leaf through seed catalogs. This year our emphasis in the garden will be on native plants and pollinators. Boxerwood is also taking part in the Million Pollinator Garden Challenge issued by the National Pollinator Garden Network.

The challenge is a nationwide call to action to preserve and create gardens and landscapes that help revive the health of bees, butterflies, bats, and other pollinators. Here at Boxerwood we will be installing a large pollinator garden in the spring and we hope you will follow suit. Now is the time to start dreaming and planning. Two reputable nurseries to help you start your own pollinator gardens are Prairie Moon Nursery (www.prairiemoon.com) and Prairie Nursery (www.prairienursery.com). Both offer pollinator seed mixes and sets of plants for a ready-made pollinator garden.
