

## FOR IMMEDIATE RELEASE

### Project NEST Website Goes Live!

*Lexington, VA – May 16, 2016.* Keeping track of Boxerwood's extensive school programming just got easier thanks to a new, dedicated website.

The website highlights the success of Project NEST (Nurturing Environmental Stewardship Together), the name of Boxerwood's K-12 initiative. Developed in house, the site has two purposes:

1. to serve as a community showcase for Project NEST; and
2. to facilitate greater coordination and sharing between local NEST teachers.

Thank you to our grantor, NOAA/B-WET, who helped fund its development. Check it out at [www.projectnestva.org](http://www.projectnestva.org).
